

REWARDING

Long lead times are history – task order procedures for OPTARSS contractors define high velocity contracting.

And because OPTARSS is an IDIQ Contract, ***you are free to tailor fit the task orders to your unique requirement*** – buy only what you want, when you want, and where you want.

There is absolutely no fee associated with the use of this contract. SRCC-E has delegated authority to all ACA contracting offices to place task orders under this contract. ***SRCC-E will assist you as needed.*** This allows you to take control of your task order to award & manage.

**Customer-focused
Commitment!**

FLEXIBLE

Depending on the project, you may choose between Cost Plus Fixed Fee, Time & Materials, Labor Hour and of course, Firm Fixed Price Task Orders.
